THE PROGRAM

The Chester County Drug Court Program supports individuals with substance use problems in breaking the cycle of addiction and the crimes that accompany it, by combining prompt and effective treatment with intensive judicial supervision.

The Drug Court Program is a pre-trial disposition program that provides eligible offenders the opportunity to receive drug treatment and upon successful completion of the program, dismissal of their charges.

The Drug Court Program has four phases. Some of the minimum requirements of those phases are listed in this brochure. You will come to Court regularly for reviews with the Judge. To move to each new phase you must be in compliance with the requirements of Drug Court and must remain clean for a period of 90 days. Expect to participate in the program for a minimum of twelve months. The length of time in the program will depend upon how well you progress.

The Drug Court Judge awards incentives for compliant behavior and imposes sanctions for negative behavior.

The Drug Court program is very demanding, but there can be a major change in your life. You can avoid having a criminal record and you can avoid serving a prison sentence.
