

CHESTER COUNTY EARLY INTERVENTION FAMILY COMMUNITY RESOURCE GUIDE

Chester County MHIDD provides this resource list as a convenience to families but does not provide specific endorsements.

Updated: Friday, September 21, 2018

AUTISM RESOURCES

Arc of Chester County (Building Better lives) – www.arcofchestercounty.org

The mission of *The Arc of Chester County* is to advocate, educate, and provide services to empower individuals with disabilities and their families to enhance the quality of their lives.

Programs offered are Early Intervention Services, Autism Services, Summer Camps, Life Skills, Fun Club, Housing etc.

Assorted supplies – www.autismshopper.com

Visual Arts for Visual Kids- For the visual thinker who translates words into pictures in their mind, it is only natural that they would learn better using visual aids. Presenting visuals during the learning process helps them retain information quicker and for longer periods of time. Using this concept when presenting unfamiliar information has been proven so effective that schools, therapists, educators and parents consider it crucial in their teaching practices.

Autism Alliance of Chester County – www.autismallianceofchestercounty.org

The mission of the Autism Alliance of Chester County is to work with the community to help put the pieces together for families and individuals living with autism, through education, awareness and support.

Autism Society of America (ASA) – www.autism-society.org

The Autism Society, the nation's leading grassroots autism organization, exists to improve the lives of all affected by autism. We do this by increasing public awareness about the day-to-day issues faced by people on the spectrum, advocating for appropriate services for individuals across the lifespan, and providing the latest information regarding treatment, education, research and advocacy.

Autism Speaks – (100 day kit) - www.autismspeaks.org

At Autism Speaks, our goal is to change the future for all who struggle with autism spectrum disorders. We are dedicated to funding global biomedical research into the causes, prevention, treatments, and cure for autism; to raising public awareness about autism and its effects on individuals, families, and society; and to bringing hope to all who deal with the hardships of this disorder. We are committed to raising the funds necessary to support these goals.

Autism for the Spanish community - www.manitasporautismo.com

Global Autism Collaboration – www.autism.org

The goal of the GAC is to disseminate information to organizations, which may, in turn, choose to distribute this to their members. Such topics will include early diagnosis/intervention, treatment (e.g., behavioral, biomedical, education, and sensory), and adult issues (e.g., employment, law enforcement, and residential). We also plan to set up free webinars to provide various forms of support, such as how to plan conferences and walks and conduct fund-raising.

NIH Infant Brain Imaging Study – www.ibis-network.org

This study of very early brain development in autism has the potential to provide important clues relevant to early detection of autism and discovering the early changes in the brain for young children with autism

EZ learning tools – www.eztools4autism.com

At EZ Tools 4 Autism we try to assist you in the journey of Autism, we also understand that every child's needs are different, that is why along with customizing some of our orders we would like to hear from you and how we can comply to your individual's needs.

Fun and Function- therapeutic play and education – www.funandfunction.com

Launched in 2005 by pediatric occupational therapist Aviva Weiss and her husband, Haskel, Fun and Function LLC has been lauded for “normalizing” the experience of being different, and helping children achieve their fullest potential. Weiss was inspired to start her own company when she discovered that one of her children had sensory processing disorder. She was frustrated by the lack of kid-friendly products, inconsistent quality, and high pricing.

Interactive Autism Network – www.iancommunity.org

The IAN Community is an online environment designed to act as an inviting library and meeting place where everyone concerned with autism spectrum disorders can learn more about autism research. Everyone can participate and benefit from the IAN Community.

K-9's for Kids with Autism - <http://k9sforkids.webs.com/>

K-9s for Kids philosophy is this: We place one of our puppies in your home and train you, the family, to train the pup. The child in need is the one who will care for the pup, the one who feeds and waters the pup, and the only one the pup will be trained to find. We will create a strong bond between your child and dog by having the child as the primary care giver.

National Autism Association – www.nationalautismassociation.org

The mission of the National Autism Association is to respond to the most urgent needs of the autism community, providing real help and hope so that all affected can reach their full potential.

Prizant, Barry – www.barryprizant.com

Barry and his colleagues' recent work has focused on developing the SCERTS® Model (Prizant, Wetherby, Rubin, Laurent and Rydell, 2006) for children who have or are at-risk for social-communicative difficulties including autism, and their families. The SCERTS Model is now being adopted nationally and internationally, and has provided many unique opportunities for international collaboration and travel.

Pyramid Educational Consultants – www.pecs.com

Pyramid Educational Consultants, Inc offers a wide range of consulting services and products for educators and parents of children and adults with autism and related disabilities. Pyramid is a consortium of highly trained professionals dedicated to providing the highest quality service. Pyramid also offers a variety of training opportunities and products that focus on the initiation of communication and the design of effective educational environments. We present a unique blend of broad spectrum applied behavior analysis, in conjunction with the development of functional communication skills. Our philosophy emphasizes the individual needs of each learner.

Sensory Friendly Movies - <http://www.autism-society.org/get-involved/events/sensory-friendly-films>

AMC has partnered with the Autism Society in creating showtimes for a more comfortable experience for families with children who have autism. The movie auditoriums will have their lights brought up and the sound turned down, families will be able to bring in their own gluten-free, casein-free snacks, and no previews or advertisements will be shown before the movie. Additionally, audience members are welcome to get up and dance, walk, shout or sing - in other words, AMC's "Silence is Golden"® policy will not be enforced unless the safety of the audience is questioned.

Social Stories – www.thegraycenter.org

The Gray Center For Social Learning and Understanding is a non-profit, 501(c)(3) organization dedicated to individuals with **autism spectrum disorders (ASD)** and those who work alongside them to improve mutual understanding. We approach the social impairment in ASD as a shared impairment. We work to improve social understanding on both sides of the social equation, helping both persons with ASD and those who interact with them to be able to communicate more effectively.

Strategies and ideas to help children with Autism – www.autisminspiration.com

We are an on-line resource for parents and teachers of children with autism spectrum behaviors. Our website is dedicated to providing you with a variety of resources including lesson plans, games, group activities, sensory integration ideas, forums, and other valuable tools and information to help teach children with Autism, Asperger Syndrome, Pervasive Developmental Delay (PDD), Sensory Integration Disorder, and other related behaviors.

Symbols and Pictures – www.symbolworld.org

Taking Care of Myself (self help, sexuality and hygiene)– www.FHautism.com

Future Horizons was created to meet the needs of teachers, therapists, and family members who face the challenge of autism. Our books, videos, and conferences are geared to bring you the most current information possible to assist in that challenge.

TINSNIPS – www.tinsnips.org

Tinsnips is a special education resource that strives to share a variety of specialized teaching tools, techniques, worksheets, and activities with teachers of students who have autistic spectrum disorders and related developmental disabilities. Many of these activities may be appropriate for Pre-K and Kindergarten children.

Treatment and Education of Autistic and Related Communication Handicapped Children (TEACCH) – www.teacch.com

TEACCH is an evidence-based service, training, and research program for individuals of all ages and skill levels with autism spectrum disorders

DEAF/HARD OF HEARING RESOURCES (please see National, State and Local resources at the end of this guide)

610-363-6520 Developmental Music classes for parents of toddlers and preschoolers ages 18months to 5 years. 6 week sessions – led by a pediatric Speech Language Pathologist and a Professional Music Teacher.

SAFETY

Premise Alert System, Speak Unlimited Inc. – www.papremisealert.com

This program allows families to voluntarily notify the police and other first responders about their special circumstances. It may be a child or adult with autism, developmental delays, or mental retardation who is known to wander. It may be someone with rare or complex medical issues that require special handling. It could be an Alzheimer patient who wanders. The Premise Alert System also helps police departments know who in their community has a special need and what situation they may be going into when called to a particular address. This form will be distributed to families through case managers at the Department of Mental Health and Mental Retardation as well as schools, community groups and legislators offices.

Special Needs Registry: This signifies an effort by county government officials to better identify those in our community who are most at risk during a disaster. Individuals registered with this site will be identified by emergency responders as part of the “special needs population”. This is a web based data collection tool that will assist those emergency responders in planning and prioritizing in the event of a disaster.

Call 610-344-5000 or logon to: <http://www.chesco.org/des> to register.

Safety beds – www.specialtyfurnitureproducts.com

Our Easycare Safety Bed™ brings added safety, security and a top quality furniture design to the special needs individual while providing peace of mind for the caregiver. EasyCare Safety Beds are designed for home healthcare and are a safe alternative to hospital beds. Your home is not a hospital and your bed should compliment your home decor. The warm look of a handcrafted EasyCare Safety Bed provides that safe, secure, comfortable feeling that your home deserves.

Safelink wireless www.safelinkwireless.com, a resource which provides free cell phone service to lower income families so they can have access to emergency assistance. Family may be eligible if they meet income guidelines or are getting Medicaid, food stamps, or TANF.

Education Law Center – www.elc-pa.org

Since 1975, the Education Law Center of Pennsylvania (ELC) has worked to make good public education a reality for Pennsylvania's most vulnerable children – poor children, children of color, children with disabilities, English language learners, children in foster homes and institutions, and others.

Educational Resources for Special Needs (picture cards) – www.dotolearn.com

The mission of Do2learn is to use technology and the web to provide special learning resources for individuals with disabilities and the professionals and caregivers who serve them. Working with leading educators, clinicians, teachers and parents, we develop serious games and learning material targeting specific deficits of individuals with neurological disorders including ASD, fetal alcohol effects, intellectual disabilities, attention disorders, learning and communication disorders and others. We specifically address deficits in the areas of behavior, socialization, communication, coping, and daily living skills.

Family items for the special needs community – www.eparent.com

EP provides practical advice and the most up-to-date educational information for families of children and adults with disabilities and special healthcare needs as well as to the physicians, allied health care professionals, and educational professionals who are involved in their care and development.

First Signs – www.firstsigns.org

Our Mission is to ensure the best developmental outcome for every child by promoting awareness regarding the most important and often overlooked aspects of development: social, emotional, and communication.

Guiding Parents Smoothly – GPS – online interactive website to track your child's development and be directed to an enormous amount of resources to help support your child's learning and development from infancy to early childhood.

MEDICAL/DENTAL

Community Volunteers in Medicine

300B Lawrence Drive, West Chester
610-836-5990
www.cvim.org

Community Volunteers in Medicine (CVIM) is a community-based, volunteer nonprofit organization providing primary medical and dental care to uninsured and low income working people in Chester County without insurance, enabling them to continue to be contributing members of the community.

The Clinic

143 Church Street, Phoenixville PA 19460
610.935.1134
www.theclinicpa.org

Since 2001, the staff and volunteers of The Clinic in Phoenixville have served the uninsured and underinsured with low-cost or free medical care. We offer primary medical care as well as a variety of medical specialties and addiction and nutrition counseling. Clinics like ours all over the country are seeing an increase in new patients. We have imposed geographical restrictions for the first time in our history. Current patients will not be affected by this change, but *new patients will be limited to the geographical areas surrounding the Phoenixville and Paoli Hospitals.*

ChesPenn Family Health Center

744 E. Lincoln Highway, Coatesville, Pa 19320
(610)-380-4660

www.chespenn.com

ChesPenn Health Services has provided quality medical and dental services to residents of Chester, Pennsylvania and neighboring communities.

Chester County Community Dental Services

744 Lincoln Highway, Suite 120, Coatesville, PA 19320

(610)-383-3888

communitydental@verizon.net

<http://www.chescodental.org/index.html>

Our mission is to reduce the disparities in dental health care by providing preventive and basic dental services, education, and outreach programs to low income, uninsured, and underinsured children and adults on a sliding fee scale.

info@phcafoundation.org

<http://www.phcafoundation.org/index.html>

The Phoenixville Healthcare Access Foundation provides the funding for the Health Care Access Programs. The Healthcare Access Programs help eligible residents of the greater Phoenixville Area access dental, emergency orthopaedic and vision care, as well as obtaining prescription medications. We refer clients to local dentists and eye doctors for the care they need. The program reimburses a network of dental and vision providers at a discounted fee for service. We assist clients in obtaining prescription medications from the drug companies' Patient Assistance Programs.

InfantSEE

This program is a no-cost program for 6 to 12 month olds made available through the Vision Care Institute, a Johnson and Johnson company, the American Optometric Association and Optometry's Charity-The AOA Foundation. This program ensures that infants have access to eye and vision assessments. Optometrists provide a one-time, comprehensive eye assessment to infants in their first year of life **at no cost regardless of income or ability to pay.** www.infantsee.org (888) 396-3937

Local County Deaf Hard of Hearing Resources and Websites

The Chester County Intermediate Unit

455 Boot Road
Downingtown, PA 19335
Danielle Hawkins, Supervisor
(484) 237-5150
danielleh@cciu.org

The Chester County Intermediate Unit provides services for children with hearing loss from birth to age 21. Early intervention and preschool services are provided in the home, child's daycare, preschool, or other natural environments. A specialized classroom is available for children between the ages of 3 to 5. Support is provided for children attending neighborhood preschools. Services are tailored to the individual needs of each child and family and can range from development of speech, language and listening skills (the auditory/oral approach) or utilizing sign language (the Total Communication approach). Parent groups and child playgroups are also available.

The Chester County Intermediate Unit
455 Boot Road
Downingtown, PA 19335
Vincent McVeigh, Supervisor
(484) 237-5013

vincem@cciu.org

The Intermediate Unit also operates district-based hearing impaired classrooms at the elementary and secondary school levels. The program supports students whose degree of hearing loss and communication needs require placement in a total communication setting.

Clarke Schools for Hearing and Speech/Pennsylvania 455 South Roberts Road, Bryn Mawr, PA 19010 - 610-525-9600 (voice/tty) <http://www.info@clarkeschools.org>; <http://www.clarkeschools.org> Judith Sexton, MS, CED, LSLS Cert AVEd, Director.
